

HIGH VOLTAGE TEST & CALIBRATION LAB

At our state of the art, High Voltage Test Bay and Calibration Laboratory, we offer calibration and repair solutions for all makes and models of high voltage, electrical test and measurement equipment.

High Voltage Test Bay:

At our High Voltage Test Bay Facility, we can test various High Voltage products in a safe and controlled manner to specific IEC standards.

This includes test / calibration of:

- ▶ HV Detectors
- ▶ HV Phase Comparators
- ▶ HV Operating Rods
- ▶ Substation Rescue Rods
- ▶ Substation Test Equipment
- ▶ AC / DC Hi-Pot Testers
- ▶ Insulation Resistance Testers
- ▶ Insulated stools / platforms
- ▶ Insulated Gloves
- ▶ Cable Test & Fault Location

Calibration Laboratory:

With our in-house laboratory, our qualified technicians offer accredited calibration and repair solutions for all makes and models of electrical test and measurement equipment.

This includes calibration / repair of:

- ▶ Electrical Instruments
- ▶ PAT Testers
- ▶ Thermal Imaging Cameras
- ▶ Temperature Equipment
- ▶ Pressure Equipment
- ▶ Torque Equipment
- ▶ Substation Equipment
- ▶ Dimensional Equipment
- ▶ Repair Service

Why Choose Us:

1. Competitive Pricing
2. 5 Day Turnaround Time
3. Specialist Service
4. Technical Expertise
5. Traceable Calibrations
6. Flexible Drop-off Service
7. ISO Certified
8. Extensive Repair Service
9. Nationwide Service
10. Calibration Programme

All of our calibrations are carried out in accordance with ISO 10012:2013. Powerpoint Engineering Limited has been assessed and certified by the NSAI to conform with the provisions of the standard Measurement Management Systems to ISO 10012:2013.
